

DATA SANITISATION CERTIFICATE

This certifies that:

SOLID STATE DRIVE (SSD)

The data-bearing asset(s) listed were processed and sanitised in accordance with UK GDPR, the Data Protection Act 2018 and recognised industry standards. User data and configuration information were removed using an approved sanitisation method within a controlled chain of custody. Data and configuration were verified cleared at time of processing.

Client Organisation

Six Thermal Solutions, Unit 7, Sovereign Enterprise Centre, Wigan, Lancashire, WN1 3AB, Un

Client Reference

Evaluation & Diagnostics Service

Serial Number

See Annex A

Sanitisation Method

SSD Logical Overwrite (Clear) – Verified

Sanitisation Date

11 Feb 2026

Certificate ID

CDD-220809-JD-MSK-0469-GFPY

Chain of Custody ID

#TF-28250-1

Tad Vaas

Senior Compliance Officer

This certificate confirms that the data sanitisation process has been completed in accordance with recognised industry standards and legal requirements. It serves as evidence of compliance for organisations handling sensitive data.
